Job Description

SWA VISION

To be a sustainable water and wastewater utility provider founded on excellence

SWA MISSION

To effectively manage the provision of safe, reliable and sustainable water services

BACKGROUND

The Samoa Water Authority is a public trading body and the major water service provider under the Samoa Water Authority Act 2003. Wholly owned by the Government of Samoa, we are governed by an appointed Board of Directors alongside a semi-autonomous Audit Committee. Our sector Minister under whose portfolio we are responsible to is the Minister of Works, Transport and Infrastructure (MWTI) while for governance as a public body our responsible Minister is the Minister for Public Enterprises (MPE).

The Authority is the main water service provider in Samoa. We draw water from multiple water sources in and around Upolu and Savaii, treat and then supply this water to households and businesses (approximately 88% of the population) through a vast network of infrastructure. We also collect, treat and dispose of wastewater within designated areas of the CBD in Upolu.

We operate 14 water treatment plants located at Malololelei, Alaoa, Fuluasou (2), Vailima, Tapatapaō, Vailoa Palauli, Tafitoala, Togitogiga, Piu, Lepā, Aleisa, Fagalii uta and Vailele. These plants draw water from rivers through water supply intake structures which are also under the Authority's purview. We also supply water by abstraction from underground aquifers for borehole water supply. This operation is a challenging undertaking for the Authority as it requires additional costs to cater for payment of annual abstraction licenses to MNRE, increased electricity, the annual customary land lease payments and compound maintenance costs. We currently manage more than 45 boreholes in both Upolu and Savaii.

Other than water supply we manage and operate a wastewater treatment plant to service designated areas within the CBD (extending from Mulinuu to the National Hospital Motootua and Sheraton Hotel Vaisigano). It is anticipated that coverage will be extended in a few years targeting towards the Matautu Marina and Wharf.
